Certificate of compliance | Material compliance sheet

1. Introduction

Filcoflex B.V. hereby declares that the materials named in chapter 2, hereinafter referred to as the "materials", meet the requirements according to the rules and regulations as listed in chapter 3 up to and including chapter 8 , hereinafter referred to as the "rules and regulations". Meaning that the materials are suitable for use in combination with these rules and regulations.

This declaration is based on the test results of applicable test for the rules and regulations and compound research, of which are copies available upon request, see chapter 9, hereinafter referred to as the "attachments".

2. Products

This declaration applies to all end products manufactured by Filcoflex from roll and/or sheet materials with the following Filcoflex brand or type names;

- PU-UF05

3. Food contact regulations

For more information, a list including the amendments and details, please refer to the "Food contact compliance - Declaration of Compliance" in the attachments.

Regulation (EC) 1935/2004
Materials and articles intended to come into contact with food.
Filcoflex B.V. certifies that in the manufacture of our materials, our raw material supplier and film manufacturer use monomers and starting substances that comply with relevant requirements of Regulation (EC1935/2004).

Commission Regulation (EC) 2023/2006
Good manufacturing practices for items intended to come into contact with food.

Filcoflex B.V. certifies that in the manufacture of our materials, our raw material supplier and film manufacturer comply with relevant requirements in Commission Regulation (EC) 2023/2006 on good manufacturing practice for materials and articles intended to come in contact with food.

Regulation (EC) 10/2011 - up to and including amendment 2026/250
Plastic materials and articles intended to come into contact with food.
Filcoflex B.V. certifies that in the manufacture of our materials, our raw materials suppliers use monomers and starting substances that comply with relevant requirements of Regulation (EC) 10/2011 and amendments up to (EU) 2026/250 for repeated use.

Regulation (EC) 1907/2006 (REACH)
Filcoflex B.V. certifies that the materials contain no dangerous ingredients according to the REACH-Regulation (EC) No. 1907/2006.

REACH - SVHC
Filcoflex B.V. hereby declares that the products as well as the end products manufactured from the materials do not contain any substances listed under the REACH - SVHC (ECHA updating list dated 2025.01.21)

FDA Food additive regulation 21 CFR, 177.1680
Filcoflex B.V. certifies that the materials are compliant to FDA 21 CFR 177.1680. FDA 21 CFR 177.1680 lays down compositional requirements for Poly Urethane resins. No end use tests have been laid down for Poly Urethane resins. The composition of the materials have been checked according to FDA 21 CFR 177.1680.

Chinese regulations
The supplier of the materials cannot state compliance towards GB 4806.6-2016 and GB 9685-2016.

4. BSE, TSE & ADI

Filcoflex B.V. declares that all of the substances in violation with the regulations are absent in the materials.

For more information and details, please refer to the "BSE, TSE & ADI compliance - Declaration of Compliance" in the attachments.

5. Food allergens

Filcoflex B.V. hereby declares that based on the information and declarations provided by the supplier, the materials do not contain any food allergens sensitive substances.

These substances are not present as any intentionally added substances in the formulation of the raw material supplier and therefore are not expected to be present.

For more information and details, please refer to the "Food allergens compliance - Declaration of Compliance" in the attachments.

6. Leachable substances

Filcoflex B.V. hereby declares that based on the information and declarations provided by the supplier, the materials do not contain any of the substances mentioned in the "Declaration of Compliance - Restricted substances".

These substances are not present as any intentionally added substances in the formulation of the raw material supplier and therefore are not expected to be present.

For more information and details, please refer to the "Restricted substances compliance - Declaration of Compliance" in the attachments.

7. PFAS

Filcoflex B.V. hereby declares that based on the information and declarations provided by the supplier, the materials do not contain any PFAS (Per- and Poly Fluoro Alkyl Substances).

These substances are not present as any intentionally added substances in the formulation of the raw material supplier and therefore are not expected to be present at levels of > 0,1% w/w.

For more information and details, please refer to the "PFAS compliance - Declaration of Compliance" in the attachments.

8. Explosion safety

Filcoflex B.V. hereby declares that, based on the information and declarations provided by the supplier as well as various test results, the materials are suitable for use in explosive environments.

Although this material is not tested for is properties regarding explosion safety, based on the test reports of the PU-UF03, PU-UF1 and PU-UF15, it is safe to say that the product is safe to use in all dust hazardous environments. Meaning that the product is applicable for ATEX-zones 20, 21, 22.

The materials do have a Declaration of Compliance for the safe use of earthing/grounding and bonding applications on end products using the materials. For more information and details, please refer to the "Grounding and bonding compliance - Declaration of Compliance" in the attachments.
